Even with its comprehensive data, no map is without limitations. Users should be aware of the following:

- **Updating Frequency:** Regions with rapidly developing infrastructure or political changes may see data become outdated quickly.
- **Remote Areas:** Some rural or isolated locations may lack detailed coverage or accurate road conditions.
- **Weather and Seasonal Variations:** Maps do not account for seasonal changes such as flooding, which can impact accessibility.

To mitigate these issues, users are encouraged to consult local sources, GPS data, and recent travel advisories alongside the map.
